

# Water-Wise House Call

## This Service Provides:

- An indoor / outdoor water efficiency evaluation, with a potential for reduced water use and water bill.
- Discussion on water efficiency practices and an opportunity to have your water conservation questions answered.
- Recommendations for leak repairs to prevent water waste.
- A water conservation kit containing water efficient devices and materials.

## Your Efforts to improve water efficiency will:

- 1 Provide water for our growing population and economy.
- 2 Conserve resources to provide safe drinking water for our children and grandchildren.
- 3 Reduce pollution in our streams by stopping wasteful runoff from our landscapes to storm drains.
- 4 Result in healthier, better-looking landscapes.
- 5 Save energy in your home and in our community.

Schedule Yours **Today!**

## Water-Wise House Calls

By appointment, a water conservation technician will come to your property, evaluate your water use and provide recommendations on using water efficiently indoors and outdoors.

A Water-Wise House Call takes approximately one hour. To qualify, you must live in the Sacramento Suburban Water District (SSWD) service area and receive a utility bill from SSWD.

## Water-Wise House Call Checklist

### Indoors

- ✓ Check all appliances and plumbing fixtures for water leaks.
- ✓ Measure the flow rate of faucets and showerheads.

### Outdoors

- ✓ Check for leaks.
- ✓ Test irrigation controller and assist in programming (if applicable).
- ✓ Perform landscape irrigation survey.
- ✓ Troubleshoot irrigation system.
- ✓ Develop efficient, custom watering schedule for your landscape.
- ✓ Locate meter (if applicable).

***Sacramento Suburban  
Water District offers  
Water-Wise House Calls  
at no direct cost to you!***

### Before leaving the property the technician will:

- ① Explain to the homeowner or property manager the findings and recommendations. A report with the findings and recommendations will be mailed or e-mailed shortly after the Water-Wise House Call appointment.
- ② If applicable, provide training on how to read a water meter.
