**Keep drugs away from children, pets and our waterways.**

## How Does It Work?

### Follow these 3 easy steps:

1. At home, remove, scratch off or **black-out personal information** from the containers.
2. Remove pills from the container, **place in a clear zipper bag**. Recycle the container. Keep liquids and creams in original containers.
3. **Place zipper bag, liquids and creams in the bin.**  
It's that easy! 1-2-3!

*Note: Medications should remain in the original child-proof container until just prior to drop-off.*

### What can I put in bins?

- Prescription medications (controlled medications accepted at specified locations)
- Over-the-counter medications
- Medicated ointments and lotions
- Pet medications

### What can't go in bins?

- Dietary supplements
- Vitamins
- Sharps
- Mercury thermometers
- Medical devices (e.g., epi-pens, glucose monitors)
- Business waste (e.g., clinics, doctor's & dentist's offices, veterinarians)
