**PROJECT ADDRESS:** 5334 Walnut Avenue

**PROJECT APN:** 230-0051-009

**PHONE NUMBER:** (916) 679-2886

---

**NOTICE IS HEREBY GIVEN** that the Sacramento Suburban Water District (SSWD) will hold a Public Hearing on the above date and time at the Administrative Office, 3701 Marconi Avenue, Sacramento to consider a California Environmental Quality Act (CEQA) Initial Study for the construction of a groundwater production well, Well 80 Walnut/Auburn (Project). The Project will be constructed on an SSWD-owned property at 5334 Walnut Avenue in an unincorporated area of Sacramento County.

Based on the Initial Study, staff is recommending adoption of a Mitigated Negative Declaration (MND) in accordance with State CEQA Guidelines. A MND is a statement that the Project would not have a significant adverse effect on the environment because mitigation measures have been added to the project.

The purpose of this Public Hearing is to give customers and interested parties an opportunity to make their comments known regarding the Project. The CEQA Initial Study is available for review at the SSWD website, [www.sswd.org](http://www.sswd.org). You may direct written comments to the SSWD's Senior Engineer, David Espinoza, at [despinoza@sswd.org](mailto:despinoza@sswd.org).
